CHICAGO, May 15.—To-day at a meeting of the board of managers of the interstate commerce railway association in the interstate commerce railway association. It now thus out, nowerer, that the refrigerator was really, as suspected, a clever device by which a bottle containing good whiskey was substituted for the bad. The trick, when performed elsewhere than the interstate commerce railway association Chairman Walker reported that the Northwestern, St. Paul, Rock Island and Wisconsin Central roads were all guilty of manipulating rates on coal and coke contrary to the interstate law. Representatives of the accused roads claimed they were only carrying out the deals made before the association was organized. The meeting referred the matter to the executive board. Chairman Walker exonerated the St. Paul from blame in the matter of one cent a mile contract on the data. The trick, when performed elsewhere than at the refrigerator, was done by means of a comp's clothing. This armor was double and was in reality a reservoir, which by means of a concealed tube could be emptied or filled at will. Comp was inveigled into taking a detective into partnership with him, but when his arrest was contemplated he smelt a mouse and field, leaving behind the refrigerator, but carrying off the armor.

age, and a perfect blonde. She is the daughter of Lord and Lady Darcy, her mother being a native Taihltan princess and her father an English nobleman of distinguished ancestry. She has had all the advantages of education in France, Germany and England. She is possessor of immense wealth in her own right and receives a large annuity from France under treaty stipulations. As may naturally be supposed, the princess has not lacked suitors for her fair hand, all of whom, including Earl Dudley, she has persistently refused. Lord Darcy was himself anxious to have his daughter marry a member of the English peerage, but he gracefully yielded to the wishes of his lovely and only child to accept as a son-in-law a sovereign American citizen. Consul Doty is only 25 years old and has worked his own way to position and fame. As a boy he was a page in the United States senate. He comes from a good family. His father, now deceased, was a prominent citizen of Brooklyn. Mrs. Doty was a granddaughter of Lord Melbourne, and her English progenitors were relatives of Chas. Lamb, the McPhersons, Wallaces and other families of note in Great Britain.

A SMOOTH YOUNG MAN. Distillers Taken in on a Scheme to Impreve Poor Whisky.

Chicago, May 15.—A scheme rivaling in some respects the great Electric Sugar fraud was exposed here to day. The perpetrator is a smooth-mannered young fellow named John Archibald Comp, whose papers indicate he has been operating in Kansas City. St. Louis, Cincinnati and other places, as well as in Chicago. He is now missing and it is said a good many thousand dollars belonging to various distillers and inquor dealers have disappeared with him.
